

## UFOs: Physiological & Psychological Traces or Evidence from Landings or ET Contact Events

It is a fact that when ever there is a landing or encounter with ETs, two types of data can be gleaned and analyzed: **Physiological & Psychological**. Also, from my research, it seems that the criteria for UFO Landings, or Contactee interaction, is based on past life experiences! The "*theory of reincarnation*" holds that humans evolve their consciousness over a long series of life times, spanning billions of years. There is a occult saying that, "*the atom becomes a mineral; the mineral becomes a plant, the plant becomes an animal, the animal becomes a man, the man becomes a god.*" This goes a long way in explaining the ET selection process for Landings or ET Contact Events. In most cases there is no linear or logical selection criteria, "unless", the laws of reincarnation are taken into account. That is, UFO Landings, or Contactee interaction "*can not*" be understood without a basic knowledge of "*reincarnation*". At this point in Earth civilization few people have access to this information. Those who know about their past life's "do not" cast their pearls before the swine. On the one hand, those disciples and initiates who have a basic knowledge of "divine laws" do not interfere with the conscious spiritual unfolding of others. They allow others to progress according to that personality's choice. However, on many occasions they assists the inspired student with their spiritual advancement. A lot of humans have had previous life's as ETs on distant worlds. This probably explains why certain high functioning contactees like **George Adamski** had knowledge of space brother's technology and culture. Generally speaking, most ETs are focused on the human race's spiritual development. This has been so since the beginning of time. However some ET races are not interested in helping humans evolve. A few races have different or varied agendas. They do not focus on spiritual development. Without the specific reincarnation back story (*of the ET & Human in question*), the **UFO research community is stuck on and endless wheel of speculations that lead nowhere**. It may be good for the publisher's cash flow, but it only muddies the true ET motivations of strange encounters.

Missing time. Missing distance due to UFO teleportation of the human. Time slowed down for a group yet the frozen persons clearly sees the ETs exploring the group from the ET time rate.  
Different points of time views. Different clock times. (*Can be either or both: Physiological & Psychological based*)

51.)ETs with bizarre eyes/ears/bodies shapes.

### **Types of Psychological Traces or Evidence**

During my research of ET display and contact events, I began to notice two psychological truths emerge which the ETs use to "**imprint**" upon the human experience: It appears **pleasure & pain** are the tools used to instill mystery or stress at the subconsciousness & conscious levels of the human mind. After the question is created in the personality, it will either seek to "*deny or resolve*" the experience. I think that a lot of ET races use this to motivate the current reincarnation along to soul's chosen life path for it's personality. I believe all life forms seek to **avoid pain and pursue pleasure**. The following is a general list. It is no way a complete list.

### **Memory**

1.)Fake memory: installed by the ETs. Time delayed recollections of contactees experience.

Erased memory of events. All vivid memory of events are pain or pleasure

based.

### **Hypnosis induced recall of contact memory by shrinks**

*(Very Dangerous. See the work of Franz Anton Mesmer, Saint-Germain, Cagliostro, Louis Claude*

*De Saint-Martin, Sigmund Freud, Wilhelm Reich, Edward Bernays, Carl Jung, Russell Targ, Harold*

*E. Puthoff and many others.)*

Same encounter event but different experiences or witnesses testimonies:

Different points of view

*(P.O.V)* "vs" same point of view of event.

### **ET memory blocks "vs" Human Black Ops memory blocks.**

ET blocks not to be confused with Men In Black memory blocks.

Blocks can be full or partial. Years later witnesses can reconnect to the memory of a UFO event by

way of a psychological trigger.

*(Had 1st hand experience when Rom remind me of by Boy Scout sighting in the early 1960s with Ron Smith).*

a.)Psychological selective display events: Some see the UFO event. Some don't. Different P.O.V.

during mass UFO sightings. Different experiences. Different descriptions.

Varying levels of amnesia

& missing time. Time stops or slows down. Different rates of time passage recorded. Missing

distance. (see Rom Log: **12-5-2007**, **5-20-2017** & **9-29-2017**) My theory: The frequency of a magnet wave or "mind wave" may have a

physiological and psychological impact on the the target's subconsciousness & consciousness. That is, Mesmerism may be employed by way of

technology. Rom Logs: **8-8-2016** Nocky War on Mars. also see: **12-25-2019** Blue Warriors use electronic electromagnetic weapons to destroy the minds of their enemy 14,000 years ago on Mars.)

### **ET mind wave technology?**
